**TO ALL CONCERNED PERSONS AND AGENCIES:**

The Regional Water Quality Control Board, Central Valley Region (Regional Board) will consider adopting revised waste discharge requirements (WDRs) for the Eastlake Landfill at its meeting on **21/22 September 2006**. The revision is necessary to approve a request by the Lake County Public Services Department to allow the landfill to accept treated wood waste and non-friable asbestos. The tentative revised WDRs also include a schedule for the County to assess and remediate low levels of contaminants that have been detected in groundwater at the facility, and include Regional Board approval of the Preliminary Closure and Post-Closure Maintenance Plan for the landfill.

Electronic copies of the proposed tentative WDRs and the Notice of Public Hearing are available for viewing and downloading on our website at [www.waterboards.ca.gov/centralvalley/tentative](http://www.waterboards.ca.gov/centralvalley/tentative). The Notice of Public Hearing contains important information about the public hearing process. Electronic copies of the April 2000 Standard Provisions and Reporting Requirements that would be adopted as part of the WDRs may be obtained at [www.waterboards.ca.gov/centralvalley/adopted\\_orders](http://www.waterboards.ca.gov/centralvalley/adopted_orders).

If you do not have access to the Internet or otherwise require paper copies of these documents to be sent to you, please contact Bill Brattain at (916) 464-4622 or by email at [bbrattain@waterboards.ca.gov](mailto:bbrattain@waterboards.ca.gov). If you have any comments on the proposed tentative WDRs, your written comments must be submitted to this office by **21 August 2006** in order for us to give them full consideration prior to the Board meeting.
